The *Texas Parks and Wildlife Outdoor Annual 2015-2016* includes regulations for recreational freshwater and saltwater fishing and hunting in Texas. While Texas Parks and Wildlife Department (TPWD) strives to provide accurate information in the *Outdoor Annual*, hunting and fishing regulations may change due to legislative or Texas Parks and Wildlife Commission actions. The *Outdoor Annual Mobile App* may automatically update to reflect published changes upon establishment of a data connection, but users should independently check the associated statutes and regulations to verify their accuracy. For commercial fishing regulations, see the "Commercial Fishing Guide." For more detailed information on game and fish regulations, contact the Texas Parks and Wildlife Law Enforcement offices, or the Texas Parks and Wildlife Department at 800-792-1112 or 512-389-4800 (Mon.-Fri. 8 a.m.-5 p.m.).

2015-2016 HUNTING SEASONS

In addition to a hunting license, a migratory game bird stamp endorsement (\$7) is required to hunt any migratory game bird, including mourning dove (a Federal Sandhill Crane Permit is required to hunt sandhill crane). An upland game bird stamp endorsement (\$7) is required to hunt turkey, quail, pheasant, or chachalacas. See County Listings for specific county regulations.

The Texas Coastal Bend offers rich, shallow bays brimming with speckled trout, flounder, and more. BRINGING THE TEXAS OUTDOORS INTO THE 21ST CENTURY

The rains finally fell. And what a blessing they've been for most parts of Texas. The La Niña weather pattern that has parched our state finally gave way this year to its cooler, wetter opposite—El Niño. It could not have come soon enough.

This wonderful reversal has set Texas up for fantastic hunting, fishing, boating, and all things that rise and fall by the rain gauge. Pick a target—upland birds, bass, catfish, flounder, big game, waterfowl—all boats should lift on this rising tide.

On land, quail should bounce back with a one-two boost from the greening landscape, plus help through \$4 million provided by the legislature for habitat restoration. And spring rains will replenish drought-stricken rivers, lakes, bays, and estuaries, setting the stage for years of improved fisheries.

Whatever you enjoy doing outdoors, one constant remains: we wouldn't be able to do it without you. Your license purchases help fund projects and programs that enable us to manage Texas' natural resources. So, from our family to yours, THANK YOU for caring about wild things and wild places.

Carter Smith, Executive Director, Texas Parks and Wildlife Department

NO BOAT, NO MOTOR ... NO PROBLEM!

BY
NATE SKINNER

I he foamy salt water of the Gulf lapped at my ankles as the sun began beaming down overhead. The cool water just felt good as I trudged through the sand, a heavy stringer in tow. Content, I thought to myself, "Now this is fishing!"

It wasn't a fancy rig with an oversized outboard motor that by the turn of a key and push of a throttle had brought me to this hole teeming with fish. This morning, my own two feet carried the load, putting me right in the middle of tons of feeding fish. It couldn't have felt any better.

There seems to be a common misconception that coastal anglers without access to a boat catch fewer fish than those with the ability to leave the shore at their stern. But that's an ocean away from the truth. All along the Texas coastline, anglers fishing from the shore, piers, kayaks, or wading out

from the bank are catching a variety of species of fish throughout the entire year.

Glenn Sutton, a TPWD biologist and Galveston Bay ecosystem leader, says the diversity of Texas bays, beachfronts, and barrier islands is what creates these excellent shore-based fishing opportunities.

"We have had an overall increase in finfish populations in recent years," explains Sutton, "and numerous species are doing exceptionally well."

Sutton reports that spotted sea trout (speckled trout) and red drum (redfish) populations in the Galveston Bay complex have sustained an above-average population over the last five years,

and other species are flourishing as well.

Speckled trout, redfish, and flounder, also known as "the Big Three," are not the only species being caught from the banks and piers along Texas bays and beaches, however. According

to TPWD Upper Laguna Madre Ecosystem biologist Zach Olsen, a recent year-long creel survey of shore and pier-based anglers shows fishermen catching a variety of species that seem to have a seasonal trend.

"Black drum are extremely plentiful in the winter and spring," explains Olsen, "and the fall months see a lot of bull red drum as well as flounder being caught by shore-based anglers."

Olsen says other species frequently caught by anglers fishing from the shore or piers include sand trout, whiting (Southern and Gulf kingfish), and sheepshead. Not only are these fish exciting to catch, but they will also bite just about any kind of bait—and they are great to eat!

"Anglers fishing the beachfront, jetties, and passes are catching sharks, king mackerel (kingfish), and even tarpon," says Olsen. "Piers stretching into the Gulf, like Bob Hall Pier on north Padre Island, along with rock groins and jetties, seem to be the best areas for these catches."

With 367 miles of Gulf beaches and 3,300 miles of bay-estuary shoreline, anglers without

LIKE TO HUNT AND FISH?

If so, you might be interested in this. Senate Joint Resolution 22, introduced in the 2015 legislative session, proposed a Texas constitutional amendment that would guarantee the right to hunt, fish, and harvest wildlife. It passed both houses and will appear on the November 2015 ballot for voter approval. Your right to vote is already guaranteed; so make your opinions known this November!

THINK EASTERN TURKEY CHECK STATIONS ARE A HASSLE? CHECK THIS OUT!

Eastern turkeys still have to be reported within 24 hours of harvest, but hunters no longer have to leave camp to do it. In fact, starting with the 2016 spring season, there won't be any more check stations. Instead, harvested easterns can be reported online at tpwd.texas.gov/turkey/ or on a new app called My Texas Hunt Harvest. The app is available for download for Android devices at Google Play and for iOS devices from the App Store. A confirmation number will be issued upon

registration, but hunters still have to tag their bird. The app has other features for hunters, including a harvest log.

BUCKIN' THE TREND

For decades in East Texas, when deer sprouted their first antlers, they were in somebody's sights. Prior to 2002, 52% of harvested bucks in some areas consisted of yearling bucks. Two-year-old bucks accounted for another 27%—shot before age could mature their antlers. Then came antler restrictions—notably requiring 13-inch minimum antler width. A three-year experimental season resulted in considerably more mature deer harvested, and remarkably fewer young 'uns. More counties were added; 117 currently have the restriction. Now, 56.65% of harvested bucks are 3.5 years or older. TPWD's age and antler survey and recent Texas Big Game Awards entries show a steady increase in Boone & Crockett scores among these bucks. In the Piney Woods, seven non-typicals scored over 160 B&C, the highest taping 197%. Eight typical bucks measured more than 160—all from low-fenced ranches. Alan Cain, TPWD's white-tailed deer program leader, attributes the increase to antler restrictions and knowledge. "Hunters and landowners have become more educated in deer management," Cain says, "resulting in improvement in overall quality across Texas."

BEARS IN THE AIR

TPWD's law enforcement just elevated its ability to move wardens, gear, and even K-9 units with its new Airbus helicopter. The chopper has the latest law enforcement technology, satellite communication, and night vision. "This helicopter is a tremendous asset and force multiplier for the Texas game wardens, especially in times of disaster," says Colonel Craig Hunter.

GENERAL HUNTING AND FISHING REQUIREMENTS/RESTRICTIONS

CRIMINAL PENALTIES AND CIVIL VALUE RECOVERY

IF YOU VIOLATE FISH AND WILDLIFE LAWS, IN ADDITION TO CIVIL RESTITUTION YOU MAY:

- be fined (Class C – \$25-\$500; Class B – \$200-\$2,000; Class A – \$500-\$4,000; State Jail Felony, \$1,500-\$10,000);
- be jailed (Class B and higher offenses);
- face automatic suspension or revocation of licenses for up to five years;
- forfeit hunting gear, including firearms, used to commit a violation.

CIVIL RESTITUTION: In addition to the criminal penalty for hunting and fishing violations, the department will seek the civil recovery value for the loss or damage to wildlife resources. **The civil restitution cost is payable to Texas Parks and Wildlife Department and is in addition to the fine assessed by the court.** Failure to pay the civil recovery value will result in the department's refusal to issue a license, tag, or permit. An individual who hunts or fishes after the refusal commits a Class A misdemeanor which is punishable by a fine not less than \$500 or more than \$4,000; punishment in jail not to exceed one year; or both fine and confinement.

LICENSE REINSTATEMENT: A person who seeks reinstatement of license privileges following license revocation, denial or suspension must apply for license privilege reinstatement and pay a \$100 application fee. For questions concerning civil restitution call (512) 389-4630.

IMPORTANT NOTE: Texas is now a member of the Interstate Wildlife Violator Compact (IWVC). The IWVC is a multi-state compact that allows member states to share information about wildlife violators and to deny licensure to persons who have failed to comply with conservation law in member states. For example, if a person has had their hunting, fishing or trapping privileges suspended in one member state, the suspension may be recognized by any member state. For more information call (512) 389-4381.

GENERAL LAW

The following information addresses some of the more commonly asked questions about hunting and fishing requirements and restrictions. For additional information not included in this guide, contact your local game warden or phone the Texas Parks and Wildlife Department (TPWD) toll free at (800) 792-1112.

- **INSPECTION AUTHORITY:** A game warden who observes a person engaged in an activity governed by the Texas Parks and Wildlife Code or reasonably believes that a person is or has been engaged in such an activity may inspect:
 - (1) any license, permit, tag, or other document issued by the department and required by the Texas Parks and Wildlife Code of a person hunting or catching wildlife resources;
 - (2) any device that may be used to hunt or catch a wildlife resource;
 - (3) any wildlife resource in the person's possession; and
 - (4) the contents of any container or receptacle that is commonly used to store or conceal a wildlife resource.
- **PERSONAL IDENTIFICATION:** while hunting, fishing or trapping, persons 17 years of age or older must carry on their person a driver's license or personal identification certificate issued by the Texas Department of Public Safety. Non-residents must carry similar documents issued by the agency in their state or country of residence that is authorized to issue driver's licenses or personal identification certificates.
- **WASTE OF GAME:** It is an offense (Class C misdemeanor) if a person while hunting kills or wounds a game bird or game animal and intentionally or knowingly fails to make a reasonable effort to retrieve the animal or bird and include it in the person's daily or seasonal bag limit. It is an offense if a person intentionally takes or possesses a game bird, game animal, or a fish and intentionally, knowingly, or recklessly, or with criminal negligence, fails to keep the edible portions of the bird, animal, or fish in an edible condition. It is a Class A misdemeanor to fail to retrieve or to keep in an edible condition a whitetail or mule deer, pronghorn antelope, or desert bighorn sheep hunted without landowner consent; from a vehicle, boat, or aircraft; on a public road; at night; or with the aid of a light.
- **RETRIEVAL OF GAME:** No person may pursue a wounded wildlife resource across a property line without the consent of landowner of the property where the wildlife resource has fled. Under the trespass provisions of the Penal Code, a person on a property without the permission of the landowner is subject to arrest.
- **HARASSMENT OF HUNTERS, TRAPPERS, OR ANGLERS** (Sportsmen's Rights Act - TPWD Code, §62.0125) is punishable by a fine of \$200 to \$2,000 and/or 180 days in jail.

- **IT IS UNLAWFUL TO:**

- take, attempt to take, or possess wildlife resources within a protected length limit, in greater numbers, by other means, or at any time or place, other than as indicated within this guide.
- store, transport, or abandon an unsecured loaded firearm in a place where children can obtain unsupervised access to the firearm. A person under age 17 who has lawful access to a firearm may hunt with the firearm if the youth has successfully completed the hunter education course, or is accompanied by a licensed hunter age 17 or older who has complied with the hunter education requirement, if applicable.
- drive a motor vehicle in the bed of a navigable freshwater stream, unless approved by a local river access plan established by a city, county, or river authority. This law does not apply to the Canadian River and Prairie Dog Town Fork of the Red River. There are other exemptions as well. The full text of this law may be found in Texas Parks and Wildlife Code, Chapter 90.
- fish on privately owned waters, fish in public water from private land, or hunt on privately owned lands without the permission of the owner or the owner's agent. Under the Texas Penal Code (§30.05) it is an offense for any person to enter property that is **fenced, posted with a sign(s), or marked (purple paint)** without the **express permission** of the owner. Posts or trees bearing **purple paint** marking of not less than eight inches in length and not less than one inch in width at not less than three or more than five feet from the ground constitute notice that the property is **posted**. A person who hunts without owner consent and kills a desert bighorn sheep, pronghorn antelope, white-tailed deer, or mule deer commits an offense that is a Parks and Wildlife Code state jail felony. Upon conviction, your hunting and fishing license is automatically revoked. You are not required to have a fishing license to fish in private waters in Texas, but if you are on private property while fishing in public water, a fishing license is required.
- discharge a firearm on or across a public road.

- **Sale of Inedible Wildlife Parts: The following inedible wildlife parts may be purchased or sold provided the part was lawfully taken or possessed:**

- Hair, hide, antlers, bones, horns, skull, hooves, or sinew from the following game animals: mule deer, white-tailed deer, pronghorn antelope, desert bighorn sheep, gray or cat squirrels, fox squirrels or red squirrels, and collared peccary or javelina.
- Feathers from ducks, geese, and brant may be used, purchased, or sold for making fishing flies, pillows, mattresses, and similar commercial uses.
- Feathers from migratory birds may not be purchased or sold for hats or ornamental purposes nor may a person purchase or sell mounted migratory game bird specimens taken by hunting.
- Feathers, bones, or feet of game birds other than migratory game birds (turkey, grouse, pheasant, partridge, quail, and chachalaca).

- **Hunter Orange:** No hunter orange is required while hunting on private property, but it is recommended.
- There is no open season for any wild animal, wild bird, or exotic animal on public roads or the right-of-way of public roads. **EXCEPTION: See Reptile and Amphibian, pg. 26.**
- **It is unlawful to possess a deer or any part of a deer that has been hit by a motor vehicle.**

GENERAL INFORMATION ABOUT LICENSES, ENDORSEMENTS AND TAGS

See sections on Fishing (pg. 22) and Hunting (pg. 25) for specific licensing information.
License fees ARE NOT refundable.

All of the licenses, license packages, endorsements, and tags listed in this guide, unless otherwise noted, may be purchased at approximately 1,800 locations statewide where licenses are sold.

Many licenses may be purchased by phone or through the Internet with approved Visa, Discover, or MasterCard. Call (800) TX LIC 4 U (1-800-895-4248) between 8 a.m. - 5 p.m. Monday through Friday (closed Saturday, Sunday and most holidays), or log on to: www.tpwd.texas.gov/licenses/online_sales

Generally, fishing and hunting licenses and endorsements are valid from the date of sale through Aug. 31, 2016. Temporary hunting and fishing licenses and packages, Year-from-Purchase fishing licenses and Lake Texoma fishing licenses have different expiration dates.

A number of "endorsements," historically called "stamps" are available for purchase with fishing packages (pg. 22) and hunting licenses (pg. 25) at the time a license is purchased. All fishing and all combination packages include one or more endorsements. Additional endorsements are available for purchase anytime during the effective date of the license/package. Actual stamps with pictures on them are no longer issued with hunting and fishing licenses; however, a book of commemorative stamps (item Type 555), which are not valid for hunting or fishing use, is available for purchase for \$21.65. The book, which contains all six Texas picture stamps (three hunting, two fishing, one non-game), may be purchased online at www.tpwd.texas.gov/licenses/online_sales, by phone at 1-800-895-4248 (\$5 administrative fee charged for all online and phone sales), or Austin headquarters. Stamp books purchased online or by phone will be mailed to the purchaser. Individual stamps are not sold by TPWD.

Lost/Destroyed License, Package or Endorsement: Any type of license or endorsement that has been lost or destroyed may be replaced at any license sales location by signing an Application for Replacement License affidavit. Fees vary from \$3-\$10 for replacement of recreational licenses or endorsements.

A **RESIDENT** is a person who has lived continuously in Texas for more than six months immediately before applying for a license. Members of the U.S. Armed Forces (and their dependents) on active duty anywhere are entitled to purchase a resident license, but the Texas Resident Active Duty Military "Super Combo" package, Texas Resident Active Duty Military All-Water Fishing Package and Texas Resident Active Duty Military Hunting Package are available to Texas residents only. The term "active duty" means full-time duty in active military service, including the National Guard and Reserves of the United States. Such term includes full-time training duty and attendance while in the active military service at a school designated as a service school by law or by the Secretary of the military department concerned. Non-residents under 17 years of age are designated as residents for hunting license purposes (**not valid for Lifetime Licenses**).

Residency is proven by any three of the following (all documents must reflect the applicant's name and a physical address in Texas). Except for a valid driver's license or a state issued identification card, documentation is not required at time of purchases or while hunting or fishing:

- a current Texas homestead property tax statement
- the most recent six months of utility bills
- the most recent six months of paycheck receipts
- the person's most recent tax return from the Internal Revenue Service
- a statement from a parole board or probation officer stating that the person has continuously resided in Texas for the six months immediately preceding the application for a license or permit
- a valid Texas driver's license*
- a current Texas voter registration certificate*
- a current vehicle registration*

*must have been issued at least six months prior to license or permit application

A **NON-RESIDENT** is any person who does not meet the requirements listed for qualification as a Texas resident.

It is unlawful to:

- hunt or fish without a valid license, or a permit and endorsement on your person and available for inspection by a game warden, unless exempt by age, program or a reciprocal agreement with another state.
- use another person's license or tag to hunt or fish.
- let someone else hunt or fish with your license or tags.

It is unlawful to purchase or obtain more than one of the following licenses:

- | | |

| • Disabled Veteran "Super Combo" | • Texas Resident Active Duty Military Hunting Package |
| • Resident "Super Combo" Package | • General Non-Resident Hunting |

Collection of Social Security Number (SSN): The collection of the SSN is mandated by federal and state law (42 U.S.C.A. 666 and Texas Family Code, Section 231.302) for the purpose of child support collection enforcement; however, state law exempts persons 13 years of age and younger from having to provide a SSN to purchase a license. TPWD cannot force persons older than 13 years of age to provide the SSN, but we cannot sell you a license. If you are buying a license for another person, the law requires that the purchaser provide the SSN of the person who will be holding the license.

TRANSFER OF WILDLIFE RESOURCES

A person may give, leave, receive, or possess any species of legally taken wildlife resource, or part of the resource, that is required to have a tag or permit attached or that is protected by a bag or possession limit if the wildlife resource is accompanied by a **Wildlife Resource Document (WRD)** (see pg. 100) from the person who killed or caught the wildlife resource. Also at: www.tpwd.texas.gov/regulations/outdoor-annual/hunting/general-regulations/transfer-of-wildlife

- For deer or antelope, a properly executed **WRD** shall accompany the wildlife resource or part of the resource until it reaches its **final destination** and is **quartered** (see Definitions, pg. 54, 55). For turkey, the **WRD** must remain attached until the turkey reaches its **final destination** and is finally processed (see pg. 54).
 - **NO WRD** is required to possess a wildlife resource that is required to be tagged if the wildlife resource is tagged.
- For all other wildlife resources except aquatic resources (for aquatic resources, see “Possession Limit,” pg. 32), a properly executed **WRD** shall accompany the wildlife resource until it reaches the possessor’s permanent residence or a cold storage/processing facility, except:
 - **NO WRD** is required if a person receiving the wildlife resource does not exceed the possession limit (exception: see Migratory Game Birds - Documentation, pg. 69).
 - A person may use the **WRD** provided in this guide (pg. 100) or a handwritten **WRD** document that includes the same required information may be used.

NOTE: No **WRD** is required when the entire carcass of a deer (including head, which may be skinned or unskinned) or antelope (including head, which must be unskinned) is given to, or transported by, another person if the tag from the hunter’s license and other required permits or the pronghorn permit remains attached until the carcass reaches its final destination and is quartered.

IMPORTATION OF WILDLIFE RESOURCES

It is unlawful to import a wildlife resource into this state or possess a wildlife resource taken outside this state unless the person possessing the wildlife resource possesses a valid hunting, fishing, or other applicable license, endorsement, tag, permit, or document for the state or country in which the wildlife resource was legally taken. Such documentation must be produced upon request of a game warden.

NOTE: It is unlawful to land by boat or person any fish taken from public water within a protected length limit, or in excess of the daily bag limit or possession limit established for those fish in Texas, regardless of the state or country in which they were caught.

A person possessing a wildlife resource for importation must produce, upon request of a game warden, a valid driver’s license or personal identification certificate.

A person may possess an animal or bird killed outside of Texas that is listed in Texas as threatened or endangered, provided that the person possesses proof that the animal or bird possessed was lawfully killed. Proof consists of bill-of-sale, license tag, or notarized affidavit.

NOTE: (IMPORTS FROM MEXICO) The requirements listed above are waived if an official United States Customs Officer’s **Statement** is obtained from the United States Customs Office at the port of entry showing that the wildlife resource was brought in from Mexico. The Customs Officer’s statement must accompany the wildlife resource to a final destination.

SUMMARY OF 2015-2016 RECREATIONAL FISHING REGULATIONS

General Fishing Rules for Fresh and Salt Waters

For purposes of this guide, salt waters and coastal waters mean the same thing.

It is a violation to:

- Take, kill, or disturb sea turtles. If you land a sea turtle, immediately call (866) 887-8535 for information on how to handle the turtle.
- Take, kill, or disturb any endangered or threatened species (paddlefish, shovel-nosed sturgeon, smalltooth sawfish, and others);
- Take or kill diamondback terrapin, sawfish of any species, porpoises, dolphins (mammals), or whales;
- Place any game fish into public waters, other than the body of water where the fish was caught, without a valid permit issued by TPWD. This includes fish caught by pole and line. For permit information, please call TPWD at (800) 792-1112 (menu 4) or (512) 389-4444.
- Use any vessel to harry, herd or drive fish including, but not limited to, operating any vessel in a repeated circular course, for the purpose of or resulting in the concentration of fish for the purpose of taking or attempting to take fish.
- Uproot or dig out any rooted seagrass plant from a bay bottom or other saltwater bottom in this state by means of a propeller. Additional information regarding seagrass regulations: www.tpwd.texas.gov/seagrass

Rules on Possession and Transport of Exotic Aquatic Species

It is a violation to:

- Possess or transport any exotic aquatic plant or animal listed as harmful or potentially harmful. This includes: plants such as hydrilla, water hyacinth, and giant salvinia; fishes such as tilapia and Asian carps (grass, silver, and bighead carp); and zebra mussels.
- Possess any tilapia, grass carp, or any other fish listed as harmful or potentially harmful without immediately removing the intestines, except on those waters where a valid Triploid Grass Carp Permit is in effect. In those waters, it is illegal to possess grass carp, and any grass carp caught must be immediately returned to the water unharmed. For a list of waters with a Triploid Grass Carp Permit, see www.tpwd.texas.gov/gcpermits.
- Fail to immediately remove and lawfully dispose of any harmful or potentially harmful aquatic plant that is clinging or attached to a vessel, watercraft, trailer, motor vehicle, or other device used to transport or launch a vessel or watercraft can result in a fine of \$25-\$500.

Rules Requiring Draining of Water from Vessels Used on Public Fresh Waters

Persons leaving or approaching public fresh water are required to drain all water from their vessels and on-board receptacles (includes live wells, bilges, motors and any other receptacles or water-intake systems coming into contact with public waters). This rule applies at all sites where boats can be launched and includes all types and sizes of boats whether powered or not, personal watercraft, sailboats, kayaks/canoes, or any other vessel used to travel on public waters.

- Live fish, including personally caught live bait, cannot be transported from the water body where the fish were caught in or aboard a vessel in water from the water body where the fish were caught. Personally caught live bait can be used in the water body where it was caught.
- Transport and use of commercially purchased live bait in water while fishing from a vessel is allowed, provided persons in possession of the bait have a receipt that identifies the source of the bait. Any live bait purchased from a location on or adjacent to a public water body that is transported in water from that water body can only be used as bait on that same water body.
- A vessel leaving a public freshwater body may be transported on a public roadway without water being drained, provided the vessel is transported via the most direct route to another access point located on the same water body during that same day.
- Persons participating in a fishing tournament confined to one water body are allowed to transport live fish in water from that single water body to an identified off-site weigh-in location, provided all water is drained and properly disposed of before leaving that location. Participants must possess documentation provided by tournament organizers that identify them as participants in a tournament.
- Marine sanitary systems are not covered by these regulations.

Following these procedures does not exempt persons from complying with prohibitions against transporting exotic aquatic species that are visible to the unaided eye, such as adult zebra mussels, which may be attached to boats or trailers.

Fishing Restrictions for Spawning Alligator Gar

When conditions such as water temperature and flooding events would be conducive for spawning of alligator gar, the TPWD Executive Director may temporarily prohibit taking or attempting to take alligator gar in a specified area for a period not to exceed 30 days. Conditions that would be used to invoke this action include water temperatures between 68 to 82°F and occurrence of moderate flood levels as defined and reported by U.S. Geological Survey gauges (see www.srh.noaa.gov/wgrfc). Notice of this action will be posted on the TPWD website, distributed to print and broadcast media, and shared through social media. The notice will specify the area to be closed and when lawful fishing for alligator gar may resume. For current closure notices, visit tpwd.texas.gov/gar-closure

Fishing in Texas State Parks

A fishing license and endorsement are not required if fishing on State Park property or in waters completely enclosed by a State Park.

On man-made structures (docks, piers, jetties, etc.) within state parks, fishing is by pole-and-line only, with each person limited to two poles. All other fishing regulations, such as length and bag limits, remain in effect.

Anchoring Boats and Vessels

It is a violation to:

- Leave unattended for any period of time or anchor a barge, boat, or fishing platform in the Trinity River below Livingston Dam in an area 1,000 feet from the dam to a point 1,500 feet downstream from the dam:
 - for more than 10 hours in a 24-hour period without moving 100 feet or more during that time, or
 - for five or more consecutive days, whether or not it has been moved;
- Anchor or moor a vessel, barge, or structure for a period exceeding two consecutive days within the area in Cedar Bayou between a department sign erected where Mesquite Bay flows into Cedar Bayou and the department sign erected near the point where the pass empties into the Gulf of Mexico.

Tagging Fish - It is unlawful to release into the public waters of this state a fish with a device or substance implanted or attached that is designed, constructed, or adapted to produce an audible, visual, or electronic signal used to monitor, track, follow, or in any manner aid in the location of the released fish. It is **legal** to place an identification tag on the exterior of a fish and release this fish back into public waters. Caution is advised as use of these tags can damage fish.

Waste of Fish - It is unlawful to leave edible fish or bait fish taken from the public waters of the state to die without the intent to retain the fish for consumption or bait.

Possession of Fish taken from Public Water

- Any fish caught must be taken by legal means and methods. Fish caught and immediately released are not considered to be in your possession. Any fish not immediately released that are retained by using any type of holding device such as stringer, cooler, livewell, or bucket are considered in your possession and must adhere to established protected length and bag limits. While fishing, it is illegal to be in possession of more fish than the daily bag limit or fish that are within a protected length limit.
- In order to verify length and species, a fish caught may not have the head or tail removed and may not be filleted until an angler finally lands the catch on the mainland, a peninsula, or barrier island not including jetties or piers and does not transport the catch by boat. Broadbill swordfish, shark, and king mackerel may have the head or tail removed, but the carcass must remain intact and may not be filleted.
- Any fish taken from public water and landed by boat or person in Texas must adhere to the protected length limits and daily bag and possession limits established for those fish in Texas regardless of the state or country in which they were caught.
- The bag limit for a guided fishing party is equal to the total number of persons in the boat licensed to fish or otherwise exempt from holding a license minus each fishing guide and fishing guide deckhand multiplied by the bag limit for each species harvested.
- It is unlawful to transport live, nongame fishes taken from the Red River below Lake Texoma downstream to the Arkansas border, Big Cypress Bayou downstream of Ferrell's Bridge Dam on Lake O' the Pines (including the Texas waters of Caddo Lake), or the Sulphur River downstream of the Lake Wright Patman dam. Nongame fishes collected from the above waters may be used as live bait on these water bodies only.

Special Area Designations and Restrictions

- **It is a violation** to move, remove, deface, alter, or destroy any sign, depth marker, or other informational signage placed by the department within, or to delineate boundaries of the Redfish Bay State Scientific Area.
- **Rio Grande:** Portions of the Rio Grande adjacent to the Black Gap Wildlife Management Area are designated as a "Wild and Scenic River." Special federal rules apply to fishing, boating, and other uses in these areas. For more information concerning these rules and boundaries, call the Big Bend National Park at (432) 477-2251 (menu 3, option 3).

Freshwater Fishing Harvest Regulations

- Statewide regulations apply for all public fresh waters except for those locations noted in the Exceptions to Statewide Freshwater Harvest Regulations on pgs. 37-41.
- A person taking or attempting to take game and nongame fish from fresh water for non-commercial purposes is required to have a valid fishing license and a freshwater fishing endorsement.
- The only exceptions to the statewide possession limits, which are twice the daily bag limits, are for striped bass from Lake Texoma and alligator gar from Falcon International Reservoir (see pg. 38-39). Please note that on Caddo Reservoir, Kirby Reservoir, Lake Livingston, Palestine Reservoir, the Sabine River below Toledo Bend Reservoir and Toledo Bend Reservoir where some daily bag limits are larger than the statewide daily bag, the possession limits remain twice the statewide daily bag limits listed on pg. 37.
- For saltwater finfish species caught in the public fresh waters of this state, statewide bag, possession, and length limits as listed on pgs. 44-45 apply.
- Some reservoirs have special regulations for red drum. See Exceptions to Statewide Freshwater Harvest Regulations.

^aSee alligator gar fishing restrictions on pg. 29. ^bSee notes on “Lawful Archery Equipment” on pg. 33.

Exceptions to Statewide Freshwater Harvest Regulations

Bait Fish Exceptions

In Brewster, Crane, Crockett, Culberson, Ector, El Paso, Jeff Davis, Hudspeth, Kinney, Loving, Pecos, Presidio, Reeves, Terrell, Upton, Val Verde, Ward, and Winkler counties, the only fishes that may be used or possessed for bait while fishing are common carp, fathead minnows, gizzard and threadfin shad, golden shiners, goldfish, Mexican tetra, Rio Grande cichlid, silversides (Atherinidae family) and sunfish (Lepomis).

How to use the table (pgs. 38-41): First, look for your location of interest (lake or river) under **Location**. The locations are listed in alphabetical order. If you find the location you are looking for, first check the counties listed to the right of the locations to make sure you have the correct location. If those match, continue reading to the right and note the codes for regulation exceptions. Exception codes are listed starting on pg. 40.

For instance, Lake Bastrop is located in Bastrop County. The codes for regulations that are exceptions to statewide regulations are **Bass9** and **Gear3**. Locate these codes listed on pgs. 40-41. Then read the description for each regulation exception. Please note MLL = Minimum Length Limit.

If you do not find the location you are looking for, that means **statewide regulations apply**. Please see above for Statewide Bag and Length Limits. If the lake is less than 75 acres and within a public park, it is most likely a **Community Fishing Lake**. See the Community Fishing Lakes listing for regulation exceptions and also see the definition on pg. 32.

How to Attach Red Drum Tag

Immediately upon retaining a fish:

1. Remove tag from license and use entire tag.
2. Fill in ALL information spaces on front of tag.
3. Cut out day and month.
4. Attach tag with a string or wire to the narrowest part of the tail, just ahead of the tail fin (see diagram).

How to Measure Fish and Crabs

Use these guidelines to measure fish correctly:

1. Place the fish on its side with the jaw closed.
2. Squeeze the tail fin together or turn it in a way to obtain the maximum overall length.
3. Measure a straight line from the tip of the snout to the extreme tip of the tail fin.

Tips for Releasing Fish

Releasing fish today means better fishing for tomorrow. Give your fish the best chance at survival by following these tips:

- Play and land fish as quickly as possible.
- Minimize the time fish is out of the water (no longer than you can hold your breath).
- Wet hands to avoid removing protective slime.
- Smaller fish (under 5 pounds) can be vertically held by the lower jaw. Never hold fish horizontally by jaw unless supporting with a second hand under the fish's body.
- Attempt to remove all hooks before release as most will not rust out.
- For details on hook removal, depressurizing overinflated air bladders, and more fish survival tips, see www.tpwd.texas.gov/regulations/outdoor-annual/fishing/freshwater-fishing/catch-release-tips

For saltwater fishes only

When releasing a fish that cannot right itself or is showing a distended air bladder:

- Gently insert a thin point or an approved device through the side of the fish immediately behind the upper part of the pectoral fin base. This is usually directly below the fourth or fifth spine (see diagram right).
- Revive fish by holding upright in water and facing it into the current, gently forcing water through gills.

SALTWATER FISHING – GENERAL INFORMATION

- For freshwater finfish species caught in the public salt waters of this state, statewide bag, possession and length limits as listed on pg. 37 apply.
- A person taking or attempting to take game and nongame fish from salt water for non-commercial purposes is required to have a valid fishing license and a saltwater fishing endorsement.

Texas State Waters – Federal Waters

Texas recreational and commercial fishermen fishing more than nine (9) nautical miles off the coast of Texas are in federal waters and are subject to rules and regulations that may differ from those in state waters. An example would be the federal requirement to use non-stainless circle hooks when fishing for reef fish. Recreational anglers must have a Texas fishing license and saltwater endorsement to bring any fish taken in federal waters ashore in Texas. To ensure that you are in compliance with federal regulations, you should contact the Gulf of Mexico Fishery Management Council at (888) 833-1844 (toll free). Federal rules may be found online at www.gulfcouncil.org

The limits and restrictions in this guide apply to aquatic life caught in the public waters of Texas out to nine (9) nautical miles in the Gulf of Mexico, and also apply to aquatic life caught between 9 and 200 nautical miles in the Exclusive Economic Zone (EEZ) and possessed in state waters or landed in this state. (Federal law also regulates species between 9 and 200 nautical miles managed under a Federal Fishery Management Plan.) See pg. 27 for Importation of Wildlife Resources.

IT IS UNLAWFUL TO POSSESS AQUATIC LIFE IN TEXAS WATERS THAT WAS ILLEGALLY TAKEN IN FEDERAL WATERS.

When temperatures on the coast are predicted to fall below 32°F for three or more days, the TPWD executive director may close one or more of the sites listed on the website below for saltwater fishing until the threat from the freeze event is over. This NOTICE OF CLOSURE will be made available to local media including newspapers. If you have any questions about your fishing area during a freeze event, please watch your local newspaper or call the nearest TPWD Law Enforcement office (see pg. 18).

Fish Consumption Bans and Advisories

Fish and shellfish can be a source of high-quality protein in your diet. Fish and shellfish, however, can accumulate contaminants from the waters in which they live. The **Texas Department of State Health Services (TDSHS)** monitors fish in the state for the presence of environmental contaminants and alerts the public through bans and advisories when a threat to human health may occur from the consumption of contaminated fish.

In waters with consumption bans, possession and consumption of fish and/or shellfish is prohibited. Catch-and-release fishing from these areas is allowed. A consumption advisory is a recommendation to limit consumption to specified quantities, species, and sizes of fish. For additional information, a listing of all consumption bans and advisories, or a listing of areas tested where no bans or advisories were issued, call the **TDSHS at (800) 685-0361 (shellfish) or (512) 834-6757 (fish)** or visit: www.dshs.state.tx.us/seafood.

Boater Education

Anyone born on or after September 1, 1993 MUST complete an approved boater education course before operating in public water a vessel of more than 15 horsepower, a windblown vessel of more than 14 feet in length, or a personal watercraft, unless there is another person on board who is 18 years of age or older and who is legally qualified to operate the vessel or personal watercraft.

For course information, please call TPWD toll-free at **(800) 792-1112** (menu 6) or call **(512) 389-4999** or consult the TPWD Boater Education section at: www.tpwd.texas.gov/boating/education

Boating Regulations and Safe Boating Tips

Each year, over 90 percent of all sportsmen who die in the water were not wearing a life jacket. **WEAR YOUR LIFE JACKET! The life you save may be your own.**

If you use a boat:

- **STATE LAW REQUIRES** a wearable-type life jacket (Types I, II, or III) for each person on board. Life jackets must be U.S. Coast Guard approved.
- Children under 13 years of age **must wear** a wearable personal flotation device on a vessel under 26 ft. in length while underway. It is recommended that non-swimmers always wear a life jacket on the water. In addition, a Type IV throwable-type life jacket is required on boats 16 feet in length and longer.
- **STATE LAW PROHIBITS** intoxicated persons (.08% BAC) from operating a boat.
- **CHECK THE WEATHER** and give a "float plan" to a friend before departing.
- See the **Texas Water Safety Act Digest** available on the TPWD website for a detailed summary of boating regulations.

www.tpwd.texas.gov/boatsafe

HELLO INVASIVE SPECIES. GOODBYE TEXAS LAKES.

Texas' waterways are under attack by invasive species that push aside native plants and animals, throwing aquatic ecosystems out of whack. Invasive plants like giant salvinia can double in size in a week and block recreational access. And species like zebra mussels can hinder water recreation, damage your boat and affect our water supply.

Don't be a carrier. Prevent the spread of invasive species by following 3 steps EVERY time you leave the water:

1. **CLEAN.** Inspect your boat, trailer and gear and remove all plant material, mud and foreign objects.
2. **DRAIN.** Remove all water from the boat, including the motor, bilge, livewells and bait buckets.
3. **DRY.** Open all compartments and allow the boat and trailer to dry for a week or more before entering another body of water. If you can't dry the boat and trailer for at least a week, wash them with high-pressure, hot soapy water instead.

Possession or transportation of aquatic invasive species without a permit is illegal in Texas. Boaters are also required to drain all water from their boat and gear before approaching or leaving a public water fresh water body. The penalty for the first offense is a fine of up to \$500. The penalty for a repeat offense is a fine of up to \$2,000, up to 180 days in jail, or both.

GOOD FISHING DEPENDS ON CLEAN WATER. Algae blooms affect fishing spots, creating "dead zones" where no aquatic life can survive. The cause is usually pollution from fertilizers, septic systems, animal waste, and sewage treatment plants. Everyone can do something to help. Supporting water quality protection supports great fishing! Learn more at: www.epa.gov/nutrientpollution/

SUMMARY OF 2015-2016 HUNTING REGULATIONS

Definitions

Annual Bag Limit for Alligator, Deer, Antelope, Turkey or Javelina:

The maximum number of these species that may be lawfully taken by a hunter during a license year.

Antler Point:

A projection that extends at least one inch from the edge of a main beam or another tine. The tip of a main beam is also a point (see illustrations, pg. 65).

Bait:

Minerals, vegetative material, or any other food substance placed to lure any wildlife resource.

Closed Season:

For any species, the period of time, if any, when hunting that species is not permitted.

Daily Bag Limit:

The maximum number of a game species (quail, pheasant, squirrel, etc.) that may be lawfully taken by a hunter during the legal shooting hours in one day.

Day:

A 24-hour period of time that begins at midnight and ends at midnight.

Edible condition:

Fit for human consumption, but does not include any portion of a game bird, game animal, or fish that is bruised ("bloodshot") by a bullet, shot, or arrow; otherwise destroyed as a result of harvest; decayed or rotting; or obviously infected or diseased.

"Final Destination" for Pronghorn Antelope, Deer, and Turkey means:

The permanent residence of the person who takes the antelope, deer, or turkey; the permanent residence of the person who receives the antelope, deer, or turkey or part of the antelope, deer, or turkey; or a cold storage or processing facility.

Hunt:

To capture, trap, take, or kill, and includes any attempt to capture, trap, take, or kill.

Legal Shooting Hours for all Game Animals and Nonmigratory Game Birds:

The period from one-half hour before sunrise to one-half hour after sunset. For information on sunrise/sunset hours, please look at: www.sunrisesunset.com/usa/Texas.asp

Open Season:

The period of time during which it is lawful to hunt a specified animal, game animal, wild fowl, or bird. The dates in this guide are opening and closing dates for the open season. The open season includes both dates and all days between. Unless otherwise specified, the open season is a "general" season and all legal means, as specified in this guide, may be used in taking the species. Where the open season is designated as "archery," only legal archery equipment/crossbow as specified below may be used. Where the open season is designated as "muzzleloader only," only muzzleloaders as defined below may be used. When a season is designated as a "youth-only," special regulations apply (see pgs. 65-67). See definition of "youth" (pg. 55).

Permanent Residence:

One's principal or ordinary home or dwelling place. This does not include one's temporary abode or dwelling such as a hunting/fishing club, or any club house, cabin, tent, car, truck, or trailer house used as a hunting/fishing club, or any hotel, motel, or rooming house used during a hunting, fishing, pleasure, or business trip.

Possession Limit:

The maximum number of a species that lawfully may be in one person's possession at any time after the first day of a hunting season, except for deer, antelope, and turkey. On the first day of any open season, the possession limit is the same as the daily bag limit. After the first day, the possession limit becomes twice the daily bag limit (except for quail and some migratory birds). For all wildlife resources taken for personal consumption and for which there is a possession limit, the possession limit shall not apply after the wildlife resource has reached the possessor's permanent residence and has been finally processed.

Quartered:

A deer or antelope is quartered when the forequarters, hindquarters, and back straps have been completely severed from the carcass.

Wildlife Resources:

Any wild animal, wild bird, or aquatic life.

Youth:

For the purposes of participation in Youth-Only hunting seasons for deer, turkey, and squirrel, is any person 16 years of age or younger. For youth waterfowl seasons, it is any person 15 years of age or younger (see the Waterfowl Digest for season dates).

MEANS AND METHODS

FIREARMS

- **Game animals and game birds** may be hunted with any **legal** firearm, **EXCEPT**:
 - white-tailed deer, mule deer, desert bighorn sheep, and pronghorn antelope may **NOT** be hunted with rimfire ammunition of any caliber.
 - **shotguns** are the only legal **firearm** that may be used to hunt Eastern turkey during the **spring Eastern turkey season** (see County Listings). Rifles and handguns may not be used to hunt Eastern turkey.
 - pellet guns and other air guns are **NOT LEGAL** for the take of any game bird or game animal other than squirrel. To be lawful for the take of squirrel, an air rifle must be designed to be fired from the shoulder and use the force of a spring, air, or other non-ignited compressed gas to expel a projectile of at least .177 caliber (4.5mm) at a minimum muzzle velocity of 600 feet per second.
 - fully automatic firearms are **NOT LEGAL**.
 - a shotgun is the only legal firearm for hunting migratory game birds (see Definitions - Legal Shotgun, pg. 68).
- **Silencers** may be used to take any wildlife resource; however all federal, state and local laws continue to apply.
- **Nongame Animals (Non-Protected)**: Any lawful firearm, pellet gun, or other air gun is legal.
- **Magazine Capacity (number of shells/cartridges allowed)**: There are no restrictions on the number of shells or cartridges a legal firearm may hold when hunting game animals or game birds (except migratory game birds, see Legal Shotgun, pg. 68).
- **Muzzleloader**: Any firearm that is loaded only through the muzzle. **Note**: A cap and ball firearm in which the powder and ball are loaded into a cylinder **is not** a muzzleloader. Muzzleloader deer seasons are restricted to muzzleloading firearms only.
- **Possession of firearms by felons**: A convicted felon, regardless of where the conviction occurred, may not possess or use a firearm (as defined by Penal Code, §46.01) to hunt in this state. Under Penal Code, §46.01, a muzzleloading firearm is lawful if it is an antique or curio firearm manufactured before 1899 or a replica of an antique or curio firearm manufactured before 1899 that does not use rimfire or centerfire ammunition.

ARCHERY AND CROSSBOWS (see **Artificial light** in **Restricted Methods** section)

- Only the archery and crossbow equipment prescribed in this section may be used for taking game animals or game birds. Archery and crossbow equipment may not be used to hunt deer during the Muzzleloader-Only Deer Season.
- **Nongame Animals:** Archery and crossbows are lawful for non-protected nongame animals.
- **Longbows, compound bows, or recurved bows:**
 - there is no minimum draw requirement.
 - devices that allow a bow to be locked at full or partial draw are lawful during any season when lawful archery equipment may be used.
- **Crossbow**
 - **IMPORTANT NOTICE:** Crossbows are lawful for any person during the **Archery-Only Open Season** in all counties, **except in Collin, Dallas, Grayson, and Rockwall counties**, where no person may use a crossbow to hunt deer during the Archery-Only Open Season (Oct. 3 - Nov. 6, 2015) unless the person has an upper-limb disability and has in immediate possession a physician's statement that certifies the extent of the disability. An upper-limb disability is a permanent loss of the use of fingers, hand, or arm in a manner that renders the person incapable of using a longbow, compound bow, or recurved bow.
 - **Any person**, regardless of physical ability, may use a crossbow to hunt game animals or game birds in any county, including Collin, Dallas, Grayson, and Rockwall counties, during a general open season or Eastern spring turkey season.
 - An archery endorsement is required to hunt deer during the Archery-Only Open Season. An archery endorsement is required to hunt deer at any time in Collin, Dallas, Grayson, and Rockwall counties, including during the general open season (Nov. 7, 2015 - Jan. 3, 2016).
 - A crossbow is lawful for game animals and game birds, provided:
 - (1) the crossbow has a minimum pull of 125 pounds;
 - (2) the crossbow has a mechanical safety; and
 - (3) the crossbow stock is not less than 25 inches in length.
 - **Telescopic sights are lawful**
- **Projectiles** (Arrows and Crossbow Bolts)
 - While hunting game animals and game birds, a projectile may not be poisoned, drugged, or explosive.
 - When used to hunt turkey and all game animals other than squirrels, a projectile must be equipped with a broadhead hunting point that is at least 7/8-inch in width (upon impact) and has a minimum of two cutting edges. A mechanical broadhead must begin to open upon impact and, when open, must be a minimum of 7/8-inch in width.
 - An archer may have arrows/bolts with field, target, or judo points in the quiver with the broadhead hunting points.

Falconry

For information on permitting or hunting regulations for falconry, call (800) 792-1112 (menu 7) or (512) 389-4481.

RESTRICTED Methods

- It is **unlawful** for any person, while hunting or engaging in recreational shooting, to knowingly discharge a firearm in such a fashion as to cause a projectile to cross a property line, unless the person owns the property on both sides of the property line or has obtained written permission from the owner of any land crossed by the projectile.
- **Remote-controlled Hunting:** A person may not engage in computer-assisted remote hunting of any animal or bird or provide or operate facilities for computer-assisted remote hunting if the animal or bird being hunted is located in Texas.
- **Artificial light** of any form that casts or reflects a beam of light onto or otherwise illuminates a game animal or bird may not be used as an aid to hunt, **except** battery-powered scoping devices that project a light or dot only inside the scope, pin sight lights on archery equipment, or laser sighting devices used by legally blind hunters, or hunters who have a documented permanent physical disability that prevents them from using traditional firearm sighting devices.
 - Legal blindness is: no more than 20/200 of visual acuity in the better eye with correcting lenses or visual acuity greater than 20/200, but with a limitation in the field of vision such that the widest diameter of the visual field subtends an angle no greater than 20 degrees. Blind hunters must be assisted by a licensed hunter at least 13 years of age who is not legally blind. Blind hunters must possess a physician's signed statement attesting to legal blindness.
 - A person who uses a laser sighting device because of a permanent physical disability that prevents

them from using a traditional firearm sighting device must have in possession a signed statement from a physician or optometrist certifying that the person is incapable of using a traditional firearm sighting device and be accompanied by a person who is not physically disabled or legally blind, has a hunting license, and is at least 13 years of age.

- **Hunter education requirements apply to legally blind hunters, hunters with a documented permanent physical disability, and persons assisting blind or disabled hunters.**
- Non-protected nongame animals and fur-bearing animals may be hunted at night with the aid of an artificial light on private property. If hunting at night, please make a courtesy telephone call to your local game warden.
- **Traps** may not be used to hunt game birds or game animals.
- **Dogs** may not be used to hunt deer in this state.
 - A person is prohibited from using a dog to hunt or pursue deer in this state. A person who violates this law is subject to a fine of \$500-\$4,000 and/or a year in jail. Additionally, a person's hunting and fishing licenses may be revoked or suspended. In addition, no person may possess a shotgun and buckshot or slugs while in the field with dogs on another person's land during an open deer season in Angelina, Hardin, Jasper, Nacogdoches, Newton, Orange, Sabine, San Augustine, Shelby, and Tyler counties.
 - Not more than two dogs may be used to trail a wounded deer in counties not listed above. A "**wounded deer**" is a deer leaving a blood trail.
- Pheasant may not be hunted by means of a cable, chain, or rope connected to or between a moving object or objects.
- **Aircraft** may not be used to hunt any animal or bird unless authorized by the department.
- See County Listings for additional regulations (pgs. 76-99).

LEGAL Methods

- Animals and game birds not classified as migratory may be hunted from a motor vehicle, powerboat, sailboat, or from any other floating device within the boundaries of private property or upon private water. Migratory game birds under certain circumstances may be hunted from a boat on public water. See the migratory game bird section for the exceptions (pg. 69, Lawful Hunting Means and Methods).
- **Calling devices** (including manual and mouth-operated), recordings, and electrically amplified calls may be used to hunt game animals and game birds, except electronic calls may not be used to hunt migratory game birds, unless allowed by special regulation.
- **Decoys** may be used to hunt game animals and game birds, except that no person may use live decoys when hunting migratory birds.
- **Baiting** for game animals, nongame animals, and game birds is lawful on private property, except for trapping in certain East Texas counties (see pg. 67) and migratory game birds statewide.
- **Trapping** may be used for nongame/exotic animals (e.g., feral hogs, rabbits, etc.) on private property.
- **Dogs** may be used to aid in the hunting of any game bird.

TAGGING DEER OR TURKEY

Filling Out the Tag for Attaching to Deer or Turkey

If required, the tag from the hunting license of the person who killed the deer or turkey must be correctly and legibly completed (including name of property and county) and must:

- be used on a specific type of deer or turkey (for example, buck tags must be used only on buck deer, antlerless tags on antlerless deer, etc.).
- have the month and date of kill **CUT OUT**.

It is against the law to use:

- a tag taken from the license of another person or allow your tag to be used by another person.
- a tag more than one time (or on more than one deer or turkey).
- an incorrect tag on a deer or turkey (example: mule deer tag used on a white-tailed deer, etc.).

Where to Attach Tag to Deer or Turkey

The hunting license tag may be attached anywhere on a deer or turkey so that it is not damaged, defaced, or lost in transporting or handling. For deer, the appropriate tag or applicable permit must remain attached to the deer until the deer reaches its final destination and is quartered. If the animal is a deer and the head is severed from the carcass (body), then the appropriate tag or applicable permit must remain attached to the carcass. See Proof of Sex section, pg. 61. If the head does not accompany the carcass, then the head

must be accompanied by a Wildlife Resource Document (WRD). See Transfer of Wildlife Resources, pg. 27. For turkey, the applicable tag must remain attached until the turkey reaches its final destination and is finally processed.

TIP: Remember that if the head and the carcass are separated, the tag from the hunting license goes with the carcass and the WRD goes with the head.

Deer

CWD CHECK STATIONS: Mandatory check station requirements may be in effect for mule deer and white-tailed deer killed in Culberson, El Paso, and Hudspeth counties during the 2015-16 hunting season. The department will also operate voluntary check stations in some areas of far west Texas. For more information, call any TPWD office (see pg. 18) or 1-800-792-1112, or go to www.tpwd.texas.gov/CWD

- Except for deer taken under by MLD permit, LAMPS permit, TPWD Special Drawn Legal Deer Tag, U.S. Forest Service antlerless permit, or Big Time Texas Hunt, **all deer** must be tagged **IMMEDIATELY** upon kill, in a secure manner anywhere on the deer, with an appropriate license tag with the month and date **CUT OUT**.
- IMPORTANT: TAGS #5 and #6 ARE FOR WHITE-TAILED ANTLERLESS DEER ONLY. TAGS #7, #8, and #9 ARE FOR WHITE-TAILED BUCK OR ANTLERLESS DEER. BUCK TAGS MAY BE USED IN ANY COUNTY; HOWEVER, LACK OF CAREFUL PLANNING WITH TAGS #7, #8, and #9 MAY REDUCE THE NUMBER OF WHITE-TAILED BUCK DEER YOU MAY LAWFULLY TAKE.**

NOTICE: READ THE TAG USE DESCRIPTION ON YOUR LICENSE CAREFULLY BEFORE ATTACHING TO HARVESTED DEER.

(MONTH AND DATE **MUST** BE CUT OUT)

- Immediately upon kill of a white-tailed deer the hunter must complete the log, in ink, on the back of the hunting license. Failure to complete the log as required may result in a fine not to exceed \$500 for each deer improperly logged. Asterisks indicate bucks with an inside main beam spread of at least 13 inches.
- Completion of the log is not required for mule deer, or for white-tailed deer or mule deer lawfully taken under a MLD permit, LAMPS permit, TPWD Special Drawn Public Hunt permit, U.S. Forest Service antlerless permit, or on a Big Time Texas Hunt.
- **WHITE-TAILED DEER HARVEST RESTRICTIONS** (as used in County Listings):
 - **MANAGED LANDS DEER (MLD) PERMITS:** Permits issued to landowners with a TPWD-approved Wildlife Management Plan. MLD permits allow hunters, at the discretion of the landowner or agent, to exceed the county bag limit and (in some cases) to hunt during an extended season. **All deer taken on a property for which MLD permits have been issued must be tagged with the appropriate type of MLD permit.** **NOTE: No license log entry or tag from a hunting license is required for deer killed under a MLD permit (see license log requirement, above).** For more information about Wildlife Management Plans, landowners should call TPWD at (512) 389-4505.
 - **LAMPS (Landowner Assisted Management Permit System):** LAMPS permits allow antlerless deer to be taken in counties where antlerless harvest is by permit only during the entire season or portion of a season. For more information, landowners should contact TPWD at (409) 489-0823 or visit www.tpwd.texas.gov/business/permits/land/wildlife_management/lamps/. **All antlerless deer taken on a LAMPS property must be tagged with a LAMPS permit. This does not include antlerless deer taken during the Archery Only Season or Muzzleloader Only Season.** **NOTE: No hunting license log or hunting license tag is required for deer killed under a LAMPS permit.**
 - For information about antlerless deer permits on National Forest lands, please call the U.S. Forest Service in Lufkin at (936) 639-8501.

NOTICE: READ THE TAG USE DESCRIPTION ON YOUR LICENSE CAREFULLY BEFORE ATTACHING TO HARVESTED TURKEY.

<u>Tag Number</u>	USE ON TURKEY ONLY:
1	Rio Grande Turkey - Valid Only in a county for which the annual bag limit is four turkeys
2	Rio Grande Turkey - Valid Only in a county for which the annual bag limit is four turkeys
3	Eastern or Rio Grande Turkey - Valid in certain East Texas counties with an annual bag limit of one (see County Listings) OR in any county with an annual bag limit of four turkeys
4	Rio Grande Turkey - Valid in any county for which the bag limit is four turkeys OR during the Spring Season in Bastrop, Caldwell, Colorado, Fayette, Jackson, Lavaca, Lee, Matagorda, Milam, and Wharton counties (see County Listings)

PROOF OF SEX

- Notice:** It is **unlawful** to possess a deer or pronghorn antelope **with proof of sex removed** unless the deer or antelope is at a final destination and has been quartered. Proof of sex for deer is:
- the head (skinned or unskinned) of a buck deer with antlers attached;
 - the head (skinned or unskinned) of an antlerless deer;
 - the unskinned head of a pronghorn antelope; or
 - a completed Managed Lands Deer Permit (MLD), Landowner Assisted Management Permit (LAMPS), Antlerless Mule Deer Permit, TPWD Drawn Hunt Legal Deer Tag, or Antlerless and Spike-buck Control Permit.
- Notice:** It is **unlawful** to possess a pheasant or turkey (turkey taken in a county where the bag composition is restricted to gobblers and/or bearded hens or taken during any spring turkey season) **with proof of sex removed**. The following is considered proof of sex and must accompany the pheasant or turkey until it reaches its final destination and is finally processed:

- Pheasant: one leg, including the spur, attached to the pheasant carcass or the entire plumage attached to the pheasant carcass;

- Turkey: in counties where the bag composition is restricted to gobblers and/or bearded hens, a male turkey is required to have one leg, including the spur, attached to the bird; or the bird, accompanied by a patch of skin with breast feathers and beard attached. In counties where the harvest of female turkeys is restricted to bearded hens, all harvested hens must be accompanied by a patch of skin with breast feathers attached.

EXCEPTION: Instead of proof of sex, the hunter may obtain a receipt from a taxidermist or a signed statement from the landowner or the landowner's agent containing the following information:

- Name of person who killed the wildlife resource;
- Date the wildlife resource was killed; and
- One of the following, as applicable: whether the deer was antlered or antlerless; the sex of the antelope; the sex of the turkey and whether a beard was attached; or the sex of the pheasant.

After Killing a Deer (Also applies to pronghorn, except for License Log)

- After a deer is killed and before the deer is field dressed or moved, the appropriate hunting license tag must be immediately filled out and date cut out (See Tagging Deer or Turkey, pg. 59).
- If a deer is taken under a LAMPS or MLD permit, the permit must be attached to the deer (see pg. 59).
- A hunter may transport a deer to a final destination (see Definitions, pg. 54), provided the deer is tagged and proof of sex accompanies the deer (see Proof of Sex, pg. 61).
- A hunter may skin and quarter a deer (two forequarters, two hindquarters, and two backstraps) and possess for transport, provided the quartered deer is tagged and proof of sex accompanies the deer. (See Cold Storage or Processing Facilities, below, for exceptions).
- A deer may not be processed any further than four quarters and two backstraps (example, steaks, hamburger, chili meat, etc.) until the deer reaches a final destination, except for immediate consumption in camp (see Processing Deer, Turkey, or Antelope in Camp).
- The four quarters and two backstraps are the only parts of a deer required by law to be kept in edible condition.
- If any part of a deer is transferred to another person before it reaches a final destination, then the transferred parts must be accompanied by a WRD (see pg. 100).
The parts retained by the person who killed the deer must be accompanied by a tag until the deer reaches a final destination.

Processing Deer, Turkey, or Antelope in Camp

- You are allowed to quarter a deer or antelope in camp, but tagging and proof-of-sex requirements continue to apply until the wildlife resource reaches a final destination (see Definitions, pg. 54).
- Deer or antelope may not be processed beyond quarters in camp unless the camp qualifies as a final destination.
- While in camp you may remove and prepare a part of a wildlife resource if the removal and preparation occur **immediately** before the part is cooked or consumed; however, all tagging and proof of sex regulations apply to remaining parts and those parts may be transported to a final destination.

Cold Storage or Processing Facilities

A cold storage or processing facility may be established anywhere, including on property where hunting is conducted. It must be a **stationary** facility designed and constructed for the purpose of processing and/or storing game animals and game birds. A vehicle, trailer, or other type of mobile storage or processing arrangement **IS NOT** a stationary facility.

Commercial Cold Storage or Processing Facility

- A person may place and maintain, or possess, in a cold storage or processing facility, lawfully killed game birds and game animals not in excess of the number permitted to be possessed by law, if:
 - the owner, operator, or lessee of the cold storage or processing facility maintains the record book as required by law with the name, address, and hunting license number of all persons placing game animals or game birds in storage, the number and species of all game animals and game birds in storage, and the date each game animal or game bird was placed in storage (information must be entered into the record book before game is placed in storage);
 - the name and address of each person who places a game bird or game animal in the facility, if different from the person who killed the bird or animal
 - tags, permits, or WRDs, when applicable, remain attached to birds until the birds are finally processed;
 - tags, permits, or WRDs, when applicable, remain attached to deer and pronghorn antelope until the carcass is quartered; and
- The owner, operator, or lessee of a cold storage or processing facility is required to maintain game birds and game animals in an edible condition.

Cold Storage or Processing Facility on Hunting Lease

- If a cold storage or processing facility on a hunting lease (see Hunting Lease License, pg. 26) is made available to persons other than the landowner, the landowner's **nonpaying** family members, or the landowner's **nonpaying** guests, then a cold storage or processing facility record book is required. **EXCEPTION:** Deer or antelope that are properly tagged and accompanied by proof of sex may be temporarily placed in a non-commercial cold storage or processing facility on a hunting lease without being entered in the cold storage record book.
- Proof of sex and tagging requirements cease to apply when a deer or antelope has been quartered and entered in a cold storage record book.
- Once a deer or antelope that has been entered in the cold storage record book it may be completely processed.

Private, Non-Commercial, Family Owned Cold Storage or Processing Facility

A cold storage record book is not required for deer or antelope placed in a private, family owned, non-commercial cold storage or processing facility that is not located on a hunting lease.

NOTE: SAVE YOUR TAG and/or PERMIT. After a wildlife resource reaches its final destination and tagging requirements have ceased, the possessor is encouraged to retain tags or permits in order to prevent delay or problems (cold storage or processor refusing to accept meat, etc.). When taking game (meat/head/hide) that you have processed at your home to a commercial processor, simply attach the appropriate hunting license tag or permit to the game.

Taxidermist

Hunters who give any part of a game animal or game bird to a taxidermist for mounting must attach a **WRD** (not the tag from the hunting license or permit) to the part. In return, for deer, pronghorn antelope, turkey and pheasant, the taxidermist must give the hunter a receipt as prescribed in "EXCEPTION" (see pg. 62). The **taxidermist "proof of sex" receipt** for the part must accompany the tagged carcass until it reaches its final destination and is finally processed. If the **taxidermist** places any game animal or game bird in cold storage, then the cold storage or processing facility record book is required by law. Without the appropriate record book and a WRD accompanying the game animal or game bird, a taxidermist may be exceeding the prescribed possession limits for game animals and game bird. Taxidermy information packets may be obtained by visiting the TPWD website at www.tpwd.texas.gov/warden/forms.

A taxidermist who accepts a deer or turkey shall retain the wildlife resource document or tag accompanying each deer or turkey for a period of two years following the return of the resource to the owner or the sale of the deer or turkey mount to recover taxidermy cost.

Game Animals

White-tailed deer Mule deer	Desert bighorn sheep Pronghorn antelope	Gray or cat squirrel Red or fox squirrel	Collared peccary or javelina
--------------------------------	--	---	---------------------------------

PRONGHORN ANTELOPE (by permit only)

For all pronghorn harvested in Texas, a permit must be properly and completely filled out and attached anywhere on the pronghorn. Pronghorn permits are issued to the landowner or landowner’s agent in most areas where there is an open season for pronghorn (the Trans-Pecos, Permian Basin and Panhandle); however, the department is testing an experimental, **buck-only** season in selected areas of the **Panhandle**. On properties within the experimental areas, hunters must obtain a **FREE** Experimental Pronghorn permit directly from the department or a participating local merchant, not from the landowner. Hunters must still obtain landowner consent to hunt (killing a pronghorn without **landowner consent** is a **felony**, see pg. 20). Additionally, hunters must present the entire head (intact) of any harvested pronghorn at a designated check station within 24 hours of take. For more information on the experimental buck-only season in the Panhandle, including maps of the areas, locations where permits may be obtained, and locations of mandatory check stations, call (800) 792-1112, or visit www.tpwd.texas.gov/pronghorn

DESERT BIGHORN SHEEP

Desert bighorn sheep may be hunted only by permit. Permits are issued to landowners or their agents in the areas of West Texas where bighorn sheep populations exist. A limited number of permits are also available through the department’s public hunting program at www.tpwd.texas.gov/huntwild/public. No person may possess a desert bighorn ram skull obtained after Sept. 1, 2003, unless the skull has been plugged by the department or the possessor possesses proof that the skull was legally obtained outside of Texas. Skulls found in the wild may be possessed, provided the possessor did not cause or participate in the death of the ram, and the department is notified within 48 hours of the skull/horns being found. Individual horns and hornless skulls may be possessed without identification or documentation.

DEER (READ VERY CAREFULLY)

- A “**buck deer**” is a deer with a **hardened antler protruding through the skin**. A “**spike buck deer**” is a **BUCK** with no antler having more than one point. **ALL OTHER DEER ARE ANTLERLESS DEER**. A spike buck must be tagged with a buck deer tag from the hunter’s hunting license or applicable permit.
- **White-tailed Deer** - Except for deer taken under MLD permits, no person may take more than five white-tailed deer or more than three bucks (all seasons combined) in one license year. Bag limits in individual counties may be less (see County Listings).

 - **IT IS UNLAWFUL TO TAKE MORE THAN ONE BUCK WITH AN INSIDE SPREAD OF 13 INCHES OR GREATER IN A COUNTY WHERE ANTLER RESTRICTIONS ARE IN EFFECT.**
 - To determine if a buck has an inside spread measurement of at least 13 inches, look at the distance from ear-tip to ear-tip on a buck with ears in the alert position (see illustration, pg. 65). The 13-inch or greater inside spread requirement does not apply to any buck that has an unbranched antler.
 - Does not apply on Level 2 or 3 MLDP properties.

- **Definition of a point:** A point is a projection that extends at least one inch from the edge of a main beam or another tine. The tip of the main beam is also a point.

HARVEST INFORMATION PROGRAM (HIP) Requirement for Migratory Game Bird Hunters

No person shall hunt migratory game birds in this state unless that person is HIP-certified in Texas. When you purchase a hunting license, indicate to the license clerk that you intend to hunt migratory game birds during the 2015-2016 season and need to be HIP-certified. The clerk will ask you to answer a few simple questions. **The letters "HIP" should appear on your license to indicate that you have been HIP-certified.**

Definitions

- **Aggregate Limit:** A daily bag or possession limit composed of more than one species.
- **Bait:** Salt, grain, or other feed, directly or indirectly placed, exposed, deposited, distributed, or scattered, that could serve as a lure or attraction for migratory game birds to, on, or over any areas where hunters are attempting to take them.
- **Baited Area:** Any area on which bait has been placed, exposed, deposited, distributed, or scattered so as to serve as a lure or attraction for migratory game birds to, on, or over areas where hunters are attempting to take them. Any such area will remain a baited area for ten days following the complete removal of all bait.
- **Daily Bag Limit:** The maximum number of birds as specified for each species which may be taken during the legal shooting hours of any one day.
- **Legal Shotgun:** Shotguns not larger than 10 gauge, fired from the shoulder, and incapable of holding more than three shells (shotguns capable of holding more than three shells must be plugged with a one-piece filler which is incapable of removal without disassembling the gun, so the gun's total capacity does not exceed three shells).
- **Manipulation:** Alteration of natural vegetation or crops, including but not limited to mowing, shredding, discing, rolling, chopping, trampling, flattening, burning, and herbicide treatments.
- **Migratory Game Birds:** Includes all wild species of ducks, geese, coot, rail, gallinules, snipe, woodcock, doves (mourning, white-winged, white-tipped or white-fronted) and sandhill cranes. Does not include exotic collared-dove.
- **Natural Vegetation:** Any non-agricultural, native, or naturalized plant species.
- **Normal Agricultural Planting, Harvesting, and Post-Harvest Manipulation:** A planting or harvesting undertaken for the purpose of producing and gathering a crop, or manipulation after such harvest and removal of a crop, that is conducted in accordance with official recommendations of State Extension Specialists of the Cooperative Extension Service of the U.S. Department of Agriculture.
- **Possession Limit:** The maximum number of migratory game birds that can be possessed at any time (three times the daily bag limit after the second day of the season).
- **Sinkbox:** A low floating device concealing a person below the surface of the water. **UNLAWFUL!**
- **Waterfowl:** Includes ducks, geese, mergansers, and coots.

General Rules

NOTE: Hunters are responsible for knowing whether an area is baited or not.

- **Baiting** (the following baiting rules have been established by the U.S. Fish and Wildlife Service):
 - A hunter **MAY** hunt any migratory game bird:
 - over standing crops, standing flooded crops, and flooded harvested crops
 - at any time over natural vegetation that has been manipulated
 - where seeds or grains have been scattered as a result of normal agricultural planting, harvesting, or post-harvest manipulation
 - over crops or natural vegetation where grain has been inadvertently scattered as a result of entering or leaving the field, placing decoys, or retrieving downed birds
 - using natural vegetation or crops to conceal a blind, provided that if crops are used, no grain or other feed is exposed, deposited, distributed, or scattered in the process
 - **except waterfowl and cranes** where grain or other feed has been distributed or scattered as the result of the manipulation of a crop or livestock feeding
 - A hunter **MAY NOT**:
 - hunt migratory birds with the aid of bait, or on or over any baited area
 - hunt over any baited area until 10 days after all baiting materials have been removed
 - hunt waterfowl or cranes over manipulated planted millet, unless the millet was planted more than one year prior to hunting
 - hunt waterfowl or cranes over crops that have been manipulated, unless the manipulation is a normal agricultural planting, harvesting, or post-harvest manipulation
- **Documentation:** All harvested migratory game birds not in the immediate possession of the person who killed them must be tagged with a WRD (see pg. 100) until the birds reach the possessor's personal residence and are finally processed. If a hunter's personal birds have been finally processed at a cold storage or processing facility and the hunter transports someone else's birds, then a WRD must accompany those birds until they reach the possessor's permanent residence.
- **Emergency Rule Changes:** These rules may be modified to make them consistent with federal regulations or to protect the wildlife resource through emergency action by the TPWD executive director.
- **Lawful Hunting Means and Methods:** Shotguns, archery equipment, falconry, dogs, artificial decoys, and manual or mouth-operated bird calls are lawful. Hunting is permitted in the open or from a blind or other type of concealment or from floating craft or boat provided that all motion resulting from sail or motor has ceased. Sails must be furled and motor turned off before shooting starts. A "sinkbox" is unlawful (see definition, pg. 68)
- **Nontoxic Shot:** While waterfowl hunting, only nontoxic shot approved by the director of the U.S. Fish and Wildlife Service may be possessed. Lead shot is unlawful! For more information, visit: www.fws.gov/migratorybirds/currentbirdissues/nontoxic.htm
- **Species Identification:** Except for migratory game birds processed at a cold storage or processing facility, or doves, one fully-feathered wing or the head must remain attached to migratory game birds while the birds are being transported between the place where taken and the permanent residence of the possessor. Note: Migratory game birds may be dressed for **immediate cooking** at a place other than a permanent residence (e.g., hunting camp). This does not include placing dressed birds in a cooler/refrigerator for later consumption while at a place other than a permanent residence. Hunters are encouraged to leave plumage on all doves other than mourning dove, white-winged dove, and white-tipped dove (e.g., exotic collared-dove) for species identification.
- **Transfer:** A person may not transfer or give migratory game birds to another person while in the field. After leaving the field, a person must have a wildlife resource document for any migratory game bird not in the immediate possession of the person who killed them (see Daily Bag and Possession). Migratory game birds may be shipped, provided a wildlife resource document accompanies the package. See above for more information on documentation. A sample WRD is on pg. 100.
- **Vehicles:** It is unlawful to hunt from or by means of motor-driven vehicles and land conveyances or aircraft of any kind, except paraplegics and single or double amputees of legs may hunt from stationary motor-driven vehicles or land conveyances. It is unlawful to use motor-driven land, water, or air conveyances or sailboats to concentrate, drive, rally, or stir up any migratory game bird.
- There is no open season for migratory game birds on public roads or the right-of-way of public roads.
- **Federal Regulations:** For more information on federal regulations, contact: U.S. Fish and Wildlife Service, P.O. Box 329, Albuquerque, NM 87103. Phone (505) 248-7889 or visit: www.fws.gov/le/

Texas Big Game Awards Program

Texas Big Game Awards program exists to recognize the harvest of quality game animals in Texas. The program includes pronghorn antelope, mule deer, white-tailed deer, javelina and desert bighorn sheep. Entries must be scored by a TBGA certified scorer. For more information, entry forms, or to contact a certified scorer, call Texas Wildlife Association at (210) 236-9761 or go online: www.texasbiggameawards.org

How to determine the sex of an alligator: This method is reliable for alligators over three feet. Locate the **cloacal opening**, which is on the bellysides of the alligator as noted in the drawing. This area is probed, males are verified if a penis is present, otherwise your report should note the harvest of a female. Your accurate documentation of measurements and other harvest data is essential for biological tracking. Do not assume that any alligator over eight feet is a male. This is not always the case. **The length of the alligator should be measured on the belly side. Measure down the center of the animal, from the tip of the top jaw to the tip of the tail.**

DUCK DESTINY

BY
LEFTY RAY CHAPA

Ducks and water go together like rice and gravy. The amount of water across North America determines whether a waterfowl hunter sitting in a blind in Texas has something to shoot at during duck hunting season. More water equals more ducks. Less water makes it more of a crapsheet.

Texas sits toward the bottom of the Central Flyway, one of four waterfowl flyways spanning the continent. Water conditions at the top of the flyway, which includes the Canadian provinces of Alberta and Saskatchewan and the northern states of North and South Dakota, largely determine the breeding season's success.

June aerial surveys will more accurately pinpoint expectations, but at press time it is known that the Canadian provinces went into a wet winter. The snowpack, however, was less and the winter precipitation was below average, although the seasonal basins remained wet. According to TPWD waterfowl biologist Kevin Kraai, the expectation is that mallard, northern pintail, and blue-winged teal reproduction from this region will be above average.

In the Dakotas, similarly, it was wet going into

winter, with the large basins holding plenty of water. But the area also experienced below-average winter precipitation and less snowpack. Kraai says he "expects good, but not excellent, production from redheads, canvasbacks, blue-winged teal, and gadwalls."

These two regions both cover vast areas with different geography, and fortunes could change rapidly depending on where the precipitation lands. All of these variables affect the ducks before they migrate to Texas. As a whole, Kraai points out, "we are riding a wave of good [duck] production over [the last] two decades." He adds, "Except for northern pintails and lesser scaup, all other ducks are above long-term averages." The good old boys talk about the good old days, but Kraai says, "We currently may be in the heyday. It's interesting and exciting."

Once the ducks migrate to Texas, the dice are rolled from year to year as the water situation here changes, too. The recent drought years in Texas, while bad for ducks overall, have been good for some waterfowl hunters, since the ducks have been more concentrated and easier to find. These fortunate hunters found the sky filled with waves upon

waves of ducks, while others found their traditional spots high and dry with nothing flying.

This past season started on a wet note, giving the formerly dry ponds and tanks water, which meant waterfowl were spread over more areas. The wider distribution put fewer ducks in the air in front of some hunters, but offered opportunities to more shotgunners across the state. The drawback was that some shooters saw only one or two species. It made for a disappointing day if those species had low bag-limit regulations—like redheads or pintails, currently limited to two each.

Much could change between press time and opening day, but at this point, it looks like hunters should probably plan on getting the state and federal waterfowl stamps or license endorsements. It could well be a good year.

The Greatest Hunters Convention on the Planet™

FISHING FOR THE SMALL FRY

BY JOHN GILL

The only small things about the ambitious Neighborhood Fishin' program recently initiated by the Texas Parks and Wildlife Department (TPWD) is that it benefits "small fry" (Texas kids), and some of the fish they can now catch.

What was started as a pilot program in 2004 and 2005 has become a favored child of the Inland Fisheries Division. Eleven metro areas are currently served on 17 active lakes. See neighborhoodfishing.org

TPWD points out that game fish will continue to be stocked in many other Texas public impoundments. Neighborhood Fishin', though, is unique and intended to serve urban residents and first-time anglers, specifically children.

The cost-benefit analysis of the plan ranks high with TPWD and its local sponsors. The program involves a three-tiered approach: TPWD, local governments, and sponsors within the selected cities. Catfish and trout are used for stocking these locations and can be easily raised to catchable size. Annual contributions of \$250,000 from the Toyota Texas Bass Classic, totaling \$2.25 million, have been crucial to the program's success.

Craig Bonds, newly appointed director of inland fisheries for TPWD, believes the urban-focused fishing project is a natural gateway to many other activities sponsored by the department. Results from the current participating locations indicate that Neighborhood Fishin' is achieving what was intended.

"We feel Neighborhood Fishin' is the path to other endeavors of TPWD, such as camping, kayaking, birding, and hiking. Our goal is simple: expose children and first-time participants to an economical and enjoyable outdoors experience, and the results will lead to other outside adventures," says Bonds.

TPWD goals for the Neighborhood Fishin' program are clearly stated. For every three adults participating, the agency wants at least one youth angler. Overall, that goal is being met—and even exceeded in several cities.

"Since more of the Texas population lives in large metropolitan areas, our intent is to bring fishing close to home and make the experience affordable, successful, and simple to access," Bonds says.

Owning a boat isn't necessary, as all locations provide safe bank access. They are generously stocked twice monthly with catfish and trout (trout in winter; catfish the rest of the year, except in August). Anglers may keep five trout and/or five catfish of any size each day. Fishing licenses are required at Neighborhood Fishin' lakes, for those age 17 and over.

Success rates for fishermen at each location are high. Fish placed in Neighborhood Fishin' lakes are fresh from hatchery ponds and anxious to nibble on a variety of baits. The average-sized catfish and trout measure around 12 inches.

Loaner tackle for those who don't have fishing equipment is available at some locations.

The long-range goal of TPWD is to have at least one Neighborhood Fishin' site in each metro area of 100,000 or more population.

And to introduce fishing to countless kids who otherwise might not have ever seen a bobber dancing on the surface of a pond.
